REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: While the prior art shows cryocoolers which are removable from sleeves in a vacuum space, no teaching can be found of having a cooling cylinder which has the displacer inserted through an opening having a flange to which the motor is installed and the flange also having a cylindrical portion extending into the sleeve to seal the space in the sleeve and permit removal of the motor and displacer from the flange and the cooling cylinder. In the devices of the prior art, the entire cooler, including the cylinder was removed from the sleeve.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
